

# GRANTS AT A GLANCE

Katy ISD Education Foundation  
Where Imagination Inspires

Celebrating \$3 Million in 11 years

Support Teacher Grants.  
Give Today!

The Katy ISD Education Foundation unites people and companies with big hearts and a big belief in children and teachers to provide unprecedented opportunities for both.

Inspiring Imagination teacher grants are the core business of the Katy ISD Education Foundation. We strongly believe that helping teachers realize their dreams in the classroom is the single most effective way for the foundation to build a legacy that will impact our children, our schools and our community for generations to come.

“Our GEMS grant gives the girls in grades 3rd-5th opportunities to be involved in STEM experiences beyond the four walls of the classroom and exposed them to what REAL engineers do!”

The impact that Inspiring Imagination teacher grants have on our community is far-reaching and long-lasting. Not only are students growing and learning, but teachers are challenged and re-energized to expand their reach beyond what a traditional classroom can offer
